To Whom it May Concern:

Over the past several years RDS and King Innovation have developed a relationship that has been beneficial to both parties. Using the latest technology, RDS has provided equipment that has reliably met King's expectations. Their equipment has provided reduced changeover time, which resulted in reduced labor and increased flexibility.

During the rare occasion that outside troubleshooting is needed, RDS has always provided prompt support for their equipment. This support has always been professional and fully capable of quickly solving any problem that we have faced. King recommends that RDS be considered for any custom equipment needs.

Sincerely,

Andy Hill
Manufacturing Manager
King Innovation
